

# BATTERY CHARGERS

TOP RAIL SERVICES battery chargers are designed taking into account the specific circumstances effecting battery charging in combination with the rugged requirements of railways. Currently we developed 3 types of battery charger:

- 24V Battery Charger
- 74V Battery Charger
- 110V Battery Charger

## Services

Since the closure of Schaffler we design and manufacture products that you would have previously purchased from Schaffler. We can also repair battery chargers.

## Technical Parameters

24V Battery Charger

Nominal battery voltage: 24V DC

Power Rating: 6kW

Supply voltage: 600V DC or 415V 3-phase AC

Maximum output current 220A

Efficiency Better than 90%

Ambient temperature -10°C to 60°C

Protection class: IP21 internally forced ventilated

Dimensions: 330×570×265mm
